Bevan Commission Conference 2018

Jacqui Wilding (BWBP (CLT) Ltd Chair and Lydia Powell (BWBP (CLT) Ltd President presented a breakout session on innovation at the Bevan Commission Conference describing the vision and aspirations of BWBP (CLT) Ltd. The session was very well received and was highlighted in the discussions on the main stage.

The Bevan Commission International Conference 2018, held on 3 & 4 July at the Celtic Manor Resort, has been described as a "world class event" by delegates. Attended by over 500 health and care professionals, policy makers, academics, community members and more, the event was a focal point for discussion in a week of NHS 70 celebrations taking place across Wales.

One Voice Wales Innovative Practice Conference

A joint workshop with Dave Palmer Wales Co-operative Centre and Jon Adams BWBP (CLT) Ltd Project Development Officer

Whilst recognising that community-led housing is only likely to be a small part of the picture in the immediate future, we believe it has the potential to play a significant role in the longer term. Community-led housing should be considered when local authorities seek to secure provision of affordable housing.

We consider that town and community councils can also play an active part in the development of community-led housing.

Creative Living

With a fantastic line up of guest speakers including Glen Peters 'Ty Solar', Christian Montez 'Our Tiny Home' and Gareth Ellis 'Green Valleys CIC'. We welcomed in a spring Sunday morning, with a highly energised discussion on innovative Housing and Energy Solutions. Following the feedback we hope to run similar events in the future. Thanks to our presenters and everyone who joined us on the day.

South Powys Ecotherapy Network

Supporting the work of PTHB, Brecon Beacons National Park, Brecon MIND, PAVO, The Muddy Geography Company and many others we were fortunate to be asked to help establish South Powys Ecotherapy Network.

The South Powys Ecotherapy Network wants to ensure that information on local services is easily available and contribute to wider discussions with commissioners on how Ecotherapy and green health initiatives can support future health and wellbeing services.

Coming up...

Public Board Meeting is on **Monday 20th August at 7pm**, The Concert Hall, Bronllys Hospital.
